

Press Release

Questions regarding the survey will be answered by Hanna Helgesson, +46 (0)768 98 80 00.

This release, or parts thereof, may be published immediately. Please state Kantar Sifo Prospera as the source.

Kantar Sifo Prospera has been commissioned by Sveriges Riksbank (Central Bank of Sweden) to undertake a series of surveys aiming at mapping expectations of inflation, wage increase, GDP and future repo rates in Sweden among labour market parties, purchasing managers and money market players. The survey also includes money market players' expectations of the Swedish 5 year government bond rate, EUR and USD rates.

The money market player survey is conducted every month. The survey also including labour market parties and purchasing managers is published quarterly.

The latest survey in the all categories series September 2019, has now been completed, the previous June 2019 was published June 12, 2019. The last survey among money market players was published August 15, 2019.

A comparison of the results of the surveys can be summarised as follows (rounded off figures):

Interview Period & Method

Kantar Sifo Prospera's survey that encompasses inflation, GDP and wage increase expectations as well as all but money market players' expectations of repo rates, was carried out August 26 - September 09, 2019 (previous May 27 - June 11, 2019). The last survey among money market players was carried out August 7 - August 13, 2019.

The part regarding money market players' expectations of future repo rates, 5 year government bond rates, EUR and USD rates took place on August 28, 2019 (previous May 29, 2019 and August 7, 2019).

The survey is carried out over the telephone. The interviewers' average experience of the survey is 8,4 years.

About the Interviewees & Response Rate

All Interviewees

In all 197 (203) organisations/companies were approached for interview. 51 (67) of the persons in the panel could not be reached or have denied participation, which means that there is an overall response rate of 74 % (67 %). The response rate for individual questions regarding inflation, wage and GDP increase expectations is 40 % or more for the one year and two year assessments (71 % exclusive of CPIF). For the five year assessment as well as the questions regarding repo rates, 5 year government bond rates, EUR and USD rates the response rate is generally lower. (Tables 2-8)

Labour Market Organisations

46 Swedish labour market organisations, of which 21 on the employers' side and 25 on the employees' side have been approached.

Purchase Managers

Of the 105 purchasing managers 53 represent the trading industry and 52 the manufacturing industry. The group of companies interviewed is a random sample selected from a company directory at the National Statistics Office of Sweden comprising Swedish companies with more than 200 employees.

Money Market Players

The money market category includes 46 players, 43 Swedish and 3 international, active in the Swedish fixed income market. The money market players were not asked to assess the expected wage increases. Only the money market players have participated in the survey covering expected 5 year government bond rates, EUR and USD rates.

Definitions

Inflation, the percentage increase in Consumer Price Index (CPI) and Consumer Price Index with a fixed interest rate (CPIF)

GDP, Gross Domestic Product, the value of all goods and services produced (by Swedish agents) in one year.

Wage increase, the percentage increase in wages/salaries as measured over all sectors in the economy, exclusive of social costs but inclusive of wage increases negotiated earlier and wage drift.

Repo rate, the Riksbank's borrowing/lending rate from/to banks for seven days' money.
