**Questions will be answered by Emelie Alm, +46 (0)765 36 21 19.**

**This release, or parts thereof, may be published immediately. Please state TNS Sifo Prospera as the source.**

TNS Sifo Prospera has been commissioned by Sveriges Riksbank (Central Bank of Sweden) to undertake a series of surveys aiming at mapping expectations of inflation, wage increase, GDP and future repo rates in Sweden among labour market parties, purchasing managers and money market players.

The survey also includes money market players' expectations of the Swedish 5 year government bond rate, EUR and USD rates.

The money market player survey is conducted every month. The survey also including labour market parties and purchasing managers is published quarterly.

The latest survey in the all categories series March 2016, has now been completed, the previous December 2015 was published December 9, 2015. The last survey among money market players was published February 17, 2016.

A comparison of the results of the surveys can be summarised as follows (rounded off figures):

## Interview Period & Method

TNS Sifo Prospera's survey that encompasses inflation, GDP and wage increase expectations as well as all but money market players' expectations of repo rates, was carried out February 29 – March 15, 2016 (previous November 23 – December 8, 2015 (February 3 – February 16, 2016)).

The part regarding money market players' expectations of future repo rates, 5 year government bond rates, EUR and USD rates took place on March 9, 2016 (December 2, 2015 (February 3, 2016)).

The survey is carried out over the telephone. The interviewers' average experience of the survey is 6,7 years.

## About the Interviewees & Response Rate

### All Interviewees

In all 231 (232) organisations/companies were approached for interview. 33 (34) of the persons in the panel could not be reached or have denied participation, which means that there is an overall response rate of 86 % (85 %). The response rate for individual questions regarding inflation, wage and GDP increase expectations is 83 % or more for the one year and two year assessments. For the five year assessment as well as the questions regarding repo rates, 5 year government bond rates, EUR and USD rates the response rate is generally lower. (Tables 2-8)

### Labour Market Organisations

50 Swedish labour market organisations, of which 23 on the employers' side and 27 on the employees' side have been approached.

### Purchase Managers

Of the 131 purchasing managers 65 represent the trading industry and 66 the manufacturing industry. The group of companies interviewed is a random sample selected from a company directory at the National Statistics Office of Sweden comprising Swedish companies with more than 200 employees.

### Money Market Players

The money market category includes 50 players, 44 Swedish and 6 international, active in the Swedish fixed income market. The money market players were not asked to assess the expected wage increases. Only the money market players have participated in the survey covering expected 5 year government bond rates, EUR and USD rates.

## Definitions

*Inflation*, the percentage increase in Consumer Price Index (CPI).

*GDP*, Gross Domestic Product, the value of all goods and services produced (by Swedish agents) in one year.

*Wage increase*, the percentage increase in wages/salaries as measured over all sectors in the economy, exclusive of social costs but inclusive of wage increases negotiated earlier and wage drift.

*Repo rate*, the Riksbank's borrowing/lending rate from/to banks for seven days' money.
