Questions will be answered by Erik Eliasson, +46 (0)705 55 63 86.

This release, or parts thereof, may be published immediately. Please state TNS SIFO Prospera as the source.

TNS SIFO Prospera has been commissioned by Sveriges Riksbank (Central Bank of Sweden) to undertake a series of surveys aiming at mapping expectations of inflation, wage increase, GDP and future repo rates in Sweden among labour market parties, purchasing managers and money market players. The survey also includes money market players' expectations of the Swedish 5 year government bond rate, EUR and USD rates.

The money market player survey is conducted every month. The survey also including labour market parties and purchasing managers is published quarterly.

The latest survey in the all categories series March 2012, has now been completed, the previous December 2011 was published December 14, 2011. The last survey among money market players was published February 15, 2012.

A comparison of the results of the surveys can be summarised as follows (rounded off figures):

Interview Period & Method

TNS SIFO Prospera's survey that encompasses inflation, GDP and wage increase expectations as well as all but money market players' expectations of repo rates, was carried out February 27 – March 13, 2012 (previous survey November 28 – December 12, 2011 (February 1 – February 10, 2012)).

The part regarding money market players' expectations of future repo rates, 5 year government bond rates, EUR and USD rates took place on February 29, 2012 (November 30, 2011 (February 1, 2012)).

The survey is carried out over the telephone. The interviewers' average experience of the survey is 10,2 years.

About the Interviewees & Response Rate

All Interviewees

In all 258 (260) organisations/companies were approached for interview. 23 (20) of the persons in the panel could not be reached or have denied participation, which means that there is an overall response rate of 91 % (92 %). The response rate for individual questions regarding inflation, wage and GDP increase expectations is 85 % or more for the one year and two year assessments. For the five year assessment as well as the questions regarding repo rates, 5 year government bond rates, EUR and USD rates the response rate is generally lower. (Tables 2-8)

Labour Market Organisations

51 Swedish labour market organisations, of which 24 on the employers' side and 27 on the employees' side have been approached.

Purchase Managers

Of the 150 purchasing managers 76 represent the trading industry and 74 the manufacturing industry. The group of companies interviewed is a random sample selected from a company directory at the National Statistics Office of Sweden comprising Swedish companies with more than 200 employees.

Money Market Players

The money market category includes 57 players, 50 Swedish and 7 international, active in the Swedish fixed income market. The money market players were not asked to assess the expected wage increases. Only the money market players have participated in the survey covering expected 5 year government bond rates, EUR and USD rates.

Definitions

Inflation, the percentage increase in Consumer Price Index (CPI).

GDP, Gross Domestic Product, the value of all goods and services produced (by Swedish agents) in one year.

Wage increase, the percentage increase in wages/salaries as measured over all sectors in the economy, exclusive of social costs but inclusive of wage increases negotiated earlier and wage drift.

Repo rate, the Riksbank's borrowing/lending rate from/to banks for seven days' money.
